Oreste Twizeyimana

Professional Summary

Experienced .NET developer with over 2 years of experience in building and deploying scalable backend applications. I have solid experience in data mapping, integrations, and performance optimization. I am looking for a dynamic, engaged team where I can utilize my .NET experience and all my skills.

Work Experience

Junior NET Developer, Oponeo.pl, Bydgoszcz, Polska
September 2021 - February 2024

Experience

Payment Integration:
- Successfully implemented Klarna for orders in various countries.
- Streamlined the handling of refunds and cancellations, significantly reducing processing time.

Automation:
- Designed an automated system for retrieving shipment statuses from DPD, DHL, and GLS.
- Significantly improved customer notification regarding order statuses.

Web Applications:
- Enhanced internal web services and applications, leading to a significant performance boost.
- Optimized data exchange with SQL Server for improved security and faster response times.
- Implemented new features for smoother user experience and enhanced application usability.

Technical Skills:

Programming:
- C#, .NET (advanced), WPF

Databases:
- SQL Server

Integration:
- Data mapping, API integrations (e.g., Klarna API)

Other:
- Problem solving, automation, code review, writing clean code, project documentation
